Print Size (ZOOM)

NOTE: This is defined in the UAAG as Universal Tool "ZOOM". When this is set at ***No Default Zoom Applied=14 pt.,*** the Universal Tool icon 'magnifier' is on providing 4 clicks of increasing magnification for each page, equivalent to the 4 levels below. At this setting, when you move on to the next page, it defaults back to the original 14 pt. size. However, if you apply any of the Levels 1-4 as a checked box test setting, that means that each page automatically appears in that particular font size. We suggest that you choose these increased print size levels ONLY if the student regularly reads all print in that particular size as an accommodation. Otherwise, leaving the setting at ***No Default Zoom Applied=14 pt.*** still allows a student to increase magnification with "zoom", but just each page at a time.

ELA: (***No Default Zoom Applied=14 pt.***/Level 1=21 pt./Level 2=24.5 pt./Level 3=35 pt./Level 4=42 pt.) **- Spreadsheet Column B**
